of a lower assessed valuation of property in the state in 1921 than it had in 1920, is the opinion of the members of the state board of equalization. While this would be contrary to all former experience, at least, in recent years, that is not the serious part of the problem, in the epionion of the board members. The question is where is the revenue with which the state decreases?

"Outside of an income tax of some sort," said William Bailey, secretary of the board, yesterday, "I see only three treet, who was griving the automotive family of a sound irrigation science is now, and for the next fifty years will be, the first need of western agriculture, said street, who was struck and killed by an automobile Friday morning, exonerated E. WATER USERS FILE ON
TWO RESERVOIR SITES

POCATELLO, Ida., Dec. 28.—Water users of Little Wood and the Eig Wood rivers, through their watermaster S. H. Chapman have filed on two reservoir sites in the upper Wood river country. One site is on Elk creek above Camas prairie and the other is the Biair site on the Big Wood river. The Elk creek sits will have a capacity of 69,000 acre feet Construction will begin on these reservoirs at an early date.

This is one of the methods which

voirs at an early date.

This is one of the methods which will be used by the water users around Richfield, Gooding and Sheshone for insuring more water for their farms. The supply during the past year not sufficient to insure one-third of a

TWO WOMEN NARROWLY ESCAPE ASPHYXIATION

POCATELLO, Idaho, Dec. 28 .- Gas escaping from a broken main in front of the residence of Mrs. Ella M. Tay-lor, nearly resulted in the death of Taylor and her mother, Mrs. H

When the women retired, they no ticed that gas was escaping, but thought nothing of it. In the morn-ing, the women were so weakened that it was necessary to remove them to a hospital for resuscitation.

It was discovered that the gas from the broken main had been following a water pipe into the house.

NOTICE TO THE PUBLIC

The Utah Surplus Army, Navy and Commercial Goods Store has again led in reducing the high cost of merchandise.

We are setting a lower standard of prices. This will be in keeping with our policy to be the first in again forcing down the high cost of merchandise. The new prices speak for themselves. Make comparison. They are the lowest in the intermountain region. You can buy these goods at prices less than you paid in 1914. We are selling them for less than the U.S. government paid for them.

Remember, the Army and Navy bought nothing but the best. That is what you get from us-THE BEST. Sale will continue until our stocks are exhausted.

ARMENIANS LIVE

NEW YORK, Dec. 25-Three thous-

college students return the courtesy as hostesses to the maids in socials at the Barn.

At Haskey camp, located in an old Armenian church, 500 persons from Cilicia are housed, 255 of them women and children. They are housed 255 of them women numbers at intervals by the fishermen and children. They are houser most of the time. Every two days the heat energy as a pound of beefsteak.

At Beehiktache camp, a large Turk-

The fish are not of the glass flow! variety, but seem to be more of a carp species, and will measure several inches and weigh as much a a half pounds each. They are placed in live cars and brought here to be loaded into express cars and ghipped in tanks, alive

each. They are placed in five cars and brought here to be loaded into express cars and shaped in tanks, alvesto the New York markets where they are sold to the retail and wholesale trade. Un to this time the local trade has not indulged in the sold fish for a feed product, aithough it is said that the fish are of a very good quality, but have very fine bones.

They seem to have no trauble with the other members of the carp family, and their habits are said to be the some. The larger fish have the feed tores of a carp, with the large scales, but a decided difference in the coloring. These fish are highly colored in the yellow and gold shades, with a little sprinkling of red which makes them very attractive.

It is said that some of these fish have been placed in glass jars, and held for some time, but that they did not take on additional size.

Charles Klingbell of the United State hatcheries is in the coloring that they had not take on additional size.

Charles Ringbell of the United States hatcheries is of the opinion that these fish come from the aquariums of Belle Isle and Detroit during the flood times of 1912, and that during the

one case of milk from the Central Armenian committee. The inilk is reserved for the babies and the sick. They cook over twig fires and with the Portage river, and it has been the constant rain and mud, dry twigs are hard to find.

Psamatia, a "special feeding camp" where the weakest refugees are sent, has 350 people, and conditions are slightly better. Scutart, another "special" camp for sick refugees are signed the schools, making a very interesting sight when they are being round-the deeper waters of the Portage river warmen who have their seine grounds for carp fishing and these fish have appeared in the shallow waters of this vicinity have been coaught in such large warmer waters, they have found the marshes of this section desirable quantities. Hauls of from a ton to a single time by the fishermen who have their seine grounds for carp fishing and these fish have appeared in where they are protected from the ican gaight when they are being rounding the winter months that they have been reported at the shallow waters of this vicinity have become inhabited by millions of fish. As the gold fish are adapted to the warmer waters, they have been caught in such large warmer waters, they have found the marshes of the section desirable quantities. Hauls of from a ton to a single time by the fishermen who have appeared in the shallow waters of this vicinity have been caught in such large warmer waters, they have been caught in such large warmer waters, they have been caught in such large warmer waters, they have been caught in such large warmer waters of this section distributions of the portage river warmer waters of the point warmer waters of the section during the past few months that the hallow waters of this section the shallow waters of this section the sh
